

SALISH PARK

37 Salish Place West

Salish Park is a long linear neighbourhood park running east - west that feeds into Atso Towaawa Park. Salish Park is ideal for the little ones that need to get out and run off some energy. With only three accesses to the park it is easy for parents to keep an eye on their little ones while they let their creative juices flow.

There is a trail through the park that would make a change of scenery for joggers, bikers, cyclists, or those looking for some fresh air.
