

# COALBANKS PARK

100 Coalbanks Blvd. West

West Side

CITY OF  
*Lethbridge*

The primary entrance to this park features a serene seating area with stylized pillars. The park also features a large playground with a great climbing wall, swings, slides, and other climbing apparatus. There is plenty of seating beside the playground including a couple of picnic tables.

There is large green space ideal for impromptu pick up games such as ultimate frisbee, soccer, football or catch.

The trail system intersects the park and connects with the rest of the neighbourhood making it ideal for the exercise enthusiasts or those out for a leisurely stroll.

Due to the large number of new families in the area the park is very well used.
