The said contract shall not be transferable.
2. A site Owner, landlord or tenant shall apply for Utility Provisions and the Applicant will be considered the Customer. During periods where no Customer has an active Account for Utility Provision for a Premise, the Premise Owner or landlord will be considered the Customer. Fixed charges will not be discontinued for short term vacancies or during the period of a temporary disconnect of services.
3. In a landlord-tenant situation, the Application fee will be waived when the Premise Owner or landlord is signed on for Utility Provision for the Premise.

Application

The Applicant may be required to sign an Application or a contract for service, to supply information with respect to load and the manner in which the services will be utilized, and credit references.

6. An Application shall be supported by such identification and legal authority of the Applicant as the Retail Services Agent may require.
7. Upon making an Application, providing all information required by the City, and paying the Application fee, deposit and any other sums herein required, there shall thereupon be a binding agreement between the Customer and the City, for the Utility applied for, and the provisions of the Application and this Bylaw shall constitute the terms and conditions of such agreement.
8. Where the Applicant is indebted to the City for any Utility Provisions previously provided by the City, the Applicant may not be allowed to complete their application, or be entitled to receive Utility Provisions, until satisfactory arrangements have been made for payment of such outstanding Account and any deposit required.

 - c. 2 times the estimated monthly Landfill billing for commercial Landfill Accounts.
11. The Retail services agent may waive the requirement for a deposit or adjust those requirements as appropriate to the perceived credit worthiness of the Applicant.
12. Interest on each Customer's cash security will be calculated using a prescribed rate

set by the City Treasurer. Simple interest will be calculated annually and then the interest will then be credited to the Customer's Utility bill when the deposit is credited to the Account.

13. The Utility Account deposit paid by such Customer will be refunded with any accrued interest that has not already been credited to the Customer's Account when the Customer has:

20. The Retail Services Agent shall be promptly notified of all connections made or of any discontinuance of Utility Provisions so that the proper charges or allowances may be made against or to any Person or Persons liable to pay for the Utility Provisions consumed or who is entitled to a refund where the Utility Provisions are disconnected. The Retail Services Agent may base the final charge for service on an estimated meter reading which will be prorated from the time of an actual meter reading.
21. Where any service rate or charge is designated by reference to a certain period of time, the charge for a lesser period of time shall be calculated on a proportionate basis.

Payments made at a financial institution must be received by the Retail Services Agent on or before the Penalty Date in order for the Customer to avoid the penalty.
30. For greater certainty, a Customer is obliged to pay for Utilities when the invoice is rendered and it is a breach of the Utility Provisions agreement to make a late payment.
